

## About US

IGTR Aurangabad has created IIC – “Incubation and Innovation Centre” to foster innovation and promote technology-based entrepreneurship in a focused way. IIC-IGTR encourages its trainees, aspiring and budding entrepreneurs to bring in a free flow of ideas and support them to convert their ideas into realities by providing state-of-the-art facilities, equipments and a co-working environment.

IIC-IGTR works as a catalyst for entrepreneurs ensuring they get the best technology support, mentoring, training, talent pool and much more. For high-potential startups, IIC-IGTR also supports for future financing efforts and provide the opportunities like seed fund to make them successful and help them in achieving new heights.

## Facilities

Upon admission to IIC, the following facilities will be offered to the incubates on an individual basis:

- ✓ Co-working Space: Reception, Cabin, Workshop, Meeting/Conference Room, etc.
- ✓ Access to Software & Design Facilities: CAD/CAM/CAE
- ✓ Access to Machining facilities: Conventional/CNC Machines, 3D Scanning/Printing, Automation Services, etc.
- ✓ Connecting to Mentors, Angel Investors & Financial Services
- ✓ Consultation from Functional / Technical Team
- ✓ Common Infrastructure: Computer, Internet Connection, Printer, Scanner, Photocopier, Electricity, Power Backup, Security, Waiting Area, Cafeteria, Standard Furniture, etc.
